

The Do Not Call list does not violate Freedom of Speech because it is voluntary. The Government is not requiring individuals sign up, or is it placing all phone numbers on the list. Each individual must request to be put on the list. Each individual is asking for telemarketers to stop telephone harassment. Each individual is not asking charitable organizations, politicians, opinion/polls, etc. to stop calling. We are asking telemarketers to cease their intrusion. We want telemarketers to stop. Please make them stop. Give us a tool, short of having our personal phone line removed, to put a stop to telephone harassment by telemarketers.
